

Description

Flex-I-Drain is a unique roof drain system, designed to connect to the building plumbing system with no hub connectors. The flexible bellows allow differential movement up to 1" (2.54 cm) in any direction between the roof deck/roofing system and the plumbing.

Use

Flex-I-Drain can be installed in any new or existing roofing system. Because of its unique flashing system, it is compatible with all roofing membrane systems and decks. Up to 3½" (8.89 cm) of insulation can be placed under the drain.

Advantages

- Provides flexible connection to plumbing system
- Positive flashing system to roof
- Positive attachment to roof deck
- Compatible with conventional roofing systems
- Broad code approval/acceptance
- Light weight
- Easy, low-cost installation
- Tough, durable construction of GE Noryl® Resin
- Meets UL® 94V-1 requirements
- Lower installation costs – one person installation

Sizes

Drain Size 3", 4", 5" and 6"
 (7.62 cm, 10.16 cm, 12.7 cm and 15.24 cm)
 Weight 6 lb (2.7 kg)
 Color Black
 (white strainer basket available upon request)
