

### Description

Structural Concrete Deck Fasteners are a #14 diameter, flat-head, hammer-in fastener with a premium coating. The shank has a specially designed knurled-thread to provide maximum holding strength into structural concrete substrates.

### Use

Designed for use with UltraFast flat-bottom, metal plates to secure roof insulation to structural concrete roof decks. The fastener and plate system provides positive attachment and resistance to uplift forces.

Structural Concrete Deck Fasteners may be included within the Peak Advantage® Guarantee when used with JM roof insulation.

### Advantages

- FM Global® and Miami-Dade County Product Control Approved.
- Premium coating exceeds the corrosion resistance requirements of FM Global.
- High performance, knurled-thread shank.

### Sizes and Packaging

2" to 8" (5.1 cm to 20.3 cm)	500/box
9" to 10" (22.9 cm to 25.4 cm)	250/box

### Precautions

**Refer to the Material Safety Data Sheet prior to using Structural Concrete Deck Fasteners. The Material Safety Data Sheet is available by calling (800) 922-5922 or on the Web at [www.jm.com/roofing](http://www.jm.com/roofing).**
