

Description

JM PVC RhinoPlate is a 3" (76.2 mm) round specially coated Galvalume® plate with a recessed center and raised flat bonding surface. The JM PVC RhinoPlate is a roof attachment system that uses heat induction technology.

Use

Use to secure roof insulation and thermoplastic roof membranes to wood, steel or structural concrete roof decks. For use with approved JM PVC membranes only.

Color

Black

Advantages

- Factory Mutual approved system.
- Minimized fastener breakage.
- Wide welding surface to promote strong bond.
- Meet FM 4470 criteria for corrosion resistance.
- Typically uses fewer fasteners for faster installation.
- Reduces membrane flutter.

Packaging

500 plates/pail

Precautions

Refer to the Material Safety Data Sheet prior to using JM PVC RhinoPlate. Material Safety Data Sheet is available by calling (800) 922-5922 or on the Web at www.jm.com/roofing.
