Re: Johns Manville's Air Handling and Fiber Glass Pipe Insulation Products are Made in America

To whom it may concern,

Johns Manville's air handling and fiber glass pipe insulation products are manufactured at plants in the United States of America. Johns Manville's air handling insulation products include Microlite® Standard and Microlite® XG Duct Wrap, 800 Series Spin-Glas® products, Spiracoustic® Plus, LinaTex®, Linacoustic® RC, Permacote® Linacoustic® HP, and Permacote® Linacoustic® R300 duct liner products, and Black, Mat-faced MicroAire®, EnviroAire®, and SuperDuct® RC duct board products. The accessory Superseal® coating products are also made in America. Johns Manville's Micro-Lok® HP fiber glass pipe insulation and Zeston® (Ceel-Co) PVC Jacketing, Fittings, and accessories are also Made in America.

The American Reinvestment and Recovery Act (ARRA) Stimulus Funding Act, Section 1605 indicates that "none of the funds appropriated or otherwise made available by this Act may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States." Johns Manville's insulation products meet the requirements for manufactured goods "Made in America" per the American Reinvestment and Recovery Act.

Please let Johns Manville know if you have any additional questions concerning its products or their intended applications.

Sincerely,

John A. Elverum
