JM PVC RhinoPlate™ Systems Solutions Update

Johns Manville provides technical updates on our product lines via www.specjm.com. We are pleased to inform you that the “Complete PVC Solutions – JM RhinoPlate™ Systems” information sheet has been updated to include FM Global® RoofNav® numbers. This can be found through the link below, or by searching for the data sheet RS-8681.

[JM RhinoPlate Systems -
http://www.specjm.com/files/pdf/JM%20PVC%20RP%20Code_Spec.pdf](http://www.specjm.com/files/pdf/JM%20PVC%20RP%20Code_Spec.pdf)

Johns Manville PVC RhinoPlate systems have several advantages by offering decreased overall fastener densities for uplift performance. In addition, RhinoPlate systems enable full sheet use over metal retrofit systems for quicker installation and reduced membrane job-site scrap.

Thank you for your continued support and business. Please contact your local sales, technical, or customer service representative with any questions or comments.
