

Single Ply Roofing Systems (EPDM) JM EPDM Metal/Membrane Flashing

Description

JM EPDM Metal/Membrane Flashing is a specially designed and manufactured flashing for sealing and waterproofing JM EPDM roofing systems where they join an adjacent bituminous roof membrane. It is comprised of a nominal 6" (15.24 cm) strip of JM EPDM membrane secured (using a patented method) to flanges of nominal 4" (10.16 cm) wide, Type 100G-6, galvanized steel.

Packaging

100 lin ft (30.48 lin m) per carton

Weight

Approximately 65 lb (29.5 kg)

Shelf Life

12 months

Installation

Refer to JM EPDM Applicator Guides or Detail Drawings for instructions.

Precautions

Do not install in direct contact with asphalt or coal tar pitch.

Refer to the Material Safety Data Sheet prior to using JM EPDM Metal/Membrane Flashing. Material Safety Data Sheet is available by calling (800) 922-5922 or on the Web at www.jm.com/roofing.
