Fesco® Board Product Recycled Content
 Insulation and Cover Board Systems

Johns Manville Fesco Board products contain 28% - 37% post-consumer recycled newsprint along with perlite and other materials. This makes Fesco an environmentally conscious choice for commercial roofs. This recycled content enhances its lightweight, easy-to-shape and fire-resistant properties.

Below are the average recycled percentages for both post-consumer and pre-consumer recycled content for each Fesco product by size.

Flat FESCO	Post-Consumer Recycled Percent	Pre-Consumer Recycled Percent	Total
3/4" - 1"	33%	0%	32%
1 1/2"	30%	0%	30%

Duraboard	Post-Consumer Recycled Percent	Pre-Consumer Recycled Percent	Total
1/2"	37.0%	0%	37%
3/4"-1"	32.0%	0%	32%

Tapered FESCO	Post-Consumer Recycled Percent	Pre-Consumer Recycled Percent	Total
3/4"	32%	0%	32%
7/8"-1"	32%	0%	32%
1"-1 1/8"	31%	0%	31%
1 1/4"	31%	0%	31%
1 3/8"	30%	0%	30%
1 1/2"	29%	0%	29%

FESCO Foam	Post-Consumer Recycled Percent	Pre-Consumer Recycled Percent	Total
1.5"	33.3%	3.7%	35%
2.0"	29.7%	4.6%	33%
2.5"	27.4%	5.1%	32%
3.0"	25.0%	5.7%	30%
3.1"	24.7%	5.8%	30%
3.5"	23.4%	6.1%	29%
4.0"	21.8%	6.5%	28%
4.5"	20.0%	7.0%	28%

Cant/Edge Strips	Post-Consumer Recycled Percent	Pre-Consumer Recycled Percent	Total
3/4"-1"	37%	0%	37%

These percentages can aid in certifying buildings under the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Green Building Rating System™. A new study posted on the U.S. Green Building Council's homepage by the CoStar Group shows occupancy, rental rates and sale prices are higher in LEED certified buildings than in conventional buildings.

Another positive environmental benefit of Fesco products is its light weight properties. This allows more boards to get shipped to a job site on fewer trucks.

Johns Manville Fesco Board products have always been manufactured with recycled products and have stood the test of time with over fifty years of success.
