Date: January 5, 2009  
Distribution: Internal & External

### **PVC Data Sheet Update**

After receiving feedback and reviewing competitive data sheets for PVC systems, we have updated the JM PVC data sheet online. Some of the additional features on the new data sheet are:

- Easy to Read-Tested Physical Properties and ASTM Requirements
- Detailed-Product Size and Color Availability Chart
- Updated-Energy Efficiency Data Including 3 Year Reflectivity and Emissivity Data

This most up to date version is available at [www.specjm.com](http://www.specjm.com) and we will be updating the print version during the reprint of the JM Single Ply binder during the first quarter of 2009.

Hal Shapiro  
Product Manager
