Johns Manville Launches PVC Single Color T-Joint Patches

Johns Manville is pleased to announce a revision to the current T-Joint Patch offering with a single color design and 4.5" (11.43 cm) diameter. The new T-Joint Patches will replace the current dual colored 6 ¾" (17.15 cm) diameter PVC patches available.

JM PVC T-Joint Patch product specifications include:

Diameter: 4.5" (11.43 cm) diameter
Colors: White, grey and sandstone
Packaging: 100/box
Stocking Locations: Hazle Township, Pennsylvania (White, Grey, Sandstone)
Stockton, California (White only)
SKU: 70001405 - White
70001406 - Grey
70001407 – Sandstone

Discontinued Part Numbers

The transitional period will be gradual; any orders received for the part numbers listed below will be filled while supplies last. When inventories are depleted, orders will automatically be transferred to the new size.

T-Joint Patch SKU	COLOR
70000271	White/Grey
70000272	Sandstone/White

Johns Manville is dedicated to developing our PVC product line to meet the growing needs of our valued customers.
