Johns Manville Price Increase - Canada Roofing Systems

In Canada, Johns Manville has held pricing steady for our signature Fesco® cover board product line since 2008. However, during this time period, world-wide commodity prices have continued to escalate significantly.

Johns Manville has made every effort to mitigate these increases through productivity gains and efficiencies at our manufacturing facilities. At this point, we regrettably must pass a portion of this cost on to our customers.

The following Fesco products will increase by 5% effective June 1, 2010:

- ½" Retro-Fit™ Board
- DuraBoard®
- FesCant Plus
- Fesco Board
- Fesco Board HD
- Tapered Fesco Board
- Tapered Fesco Edge Strip
- Tapered Fesco Foam

Existing quotations will be honored through the quoted expiration date but will not be extended.

We would like to thank our Canadian customers for their continued support and will make every effort to minimize the impact of future increases moving forward.

Tommy Knappich
Director of Sales
