## **PRICING BULLETIN**

Bulletin Number: P11-018  
Date: November 15, 2011  
Distribution: External  
Effective: December 15, 2011

### **Johns Manville Roofing Price Increase Fastening Systems**

As communicated in previous price increase notices, raw material costs are escalating beyond our ability to continue to absorb them. Based on the spike with steel and Galvalume<sup>®</sup>, Johns Manville is announcing the following price increases on select fasteners effective December 15<sup>th</sup>, 2011:

Pre-Assembled (ASAP) with metal plates - 5%  
Select Metal Plates - 11%  
Base Sheet Fasteners - 8%  
TPO & PVC Rhino Plates - 5%

Account Managers will be including the December 15<sup>th</sup> price page with this announcement for further clarification on those products affected.

We will continue to work with our suppliers and service providers to minimize the effects of rising costs. We also appreciate your business and continued support. The new price will be applied to all shipments on or after the effective increase date regardless of order placement date. Existing quotes will be honored, but extensions will not be granted.

Thank you for your continued support.

Terry Faas  
Director of Commercial Operations
